NEW RIVER COMMUNITY AND TECHNICAL COLLEGE TO OFFER MINE FOREMAN CONTINUING EDUCATION COURSE

[SUMMERSVILLE, W. VA.] New River Community and Technical College will offer a Mine Foreman Continuing Education Class taught by Ireland Sutton on Friday, Feb. 4, from 8 a.m.– 4 p.m. in the conference room at the Workforce WV Career Center in Summersville, W. Va.

The purpose of this class is to ensure that mine foremen are aware of new mine laws and regulations, duties of the mine foreman, types of accidents and accident prevention techniques. The class also includes a review of fatal accidents.

All mine foremen-fire bosses are required to complete continuing education requirements within two years of their certification and every two years thereafter. This class is an excellent opportunity to receive the training close to home. The fee for this program is $50 per participant.

Due to limited class size, preregistration is recommended. Contact New River’s Office of Workforce Education at (304) 872-4520 to register.
