NEW RIVER OFFERS MODERN COMPUTING WORKSHOP BEGINNING JULY 8

[LEWISBURG, WV] New River Community and Technical College will offer a six-week, 12-class non-credit community education workshop, “Introduction to Modern Computing,” beginning July 8. This course is for those who want to learn how to use a computer more efficiently. It offers both beginners and active computer users solid information to help better understand the importance of computers in today’s society and how they really work.

Instructor Dustin Dixon has broken the course down into two main areas. The first area will help you as users understand how to identify and manipulate computer hardware. The second area will help you understand how to control your computer using a variety of software applications such as antivirus software, Internet Explorer and other internet browsers, Microsoft Windows and many other software applications.

“Modern Computing” will meet every Tuesday and Thursday from 2-4 p.m. for six weeks for a total of 12 sessions July 8 through August 17. The cost of the class is $100. Preregistration is required by July 1. Seating is limited. To register, or for more information, please contact the New River Office of Workforce Education at (304) 793-6101 or 304-872-4520.
